BAKING INSTRUCTIONS

- We recommend baking your pizza within 24 hours of purchase. Keep refrigerated until that time.
- Allow your pizza to come to room temperature (at least 20 minutes), while pre-heating your oven to 425 degrees. Remove plastic wrap. If you are using a convection oven, reduce the temperature to 400 degrees and carefully watch the bottom as it will not cook as fast as the top. Cooking time will be slightly longer.
- The pizza cooks on the specially designed tray it is built on. Honest! This is the engineering behind Take and Bake. Place your pizza on the middle oven rack, making sure the tray does not touch the oven walls.
- Baking time averages 15 to 19 minutes, depending on the size and weight of your pizza. The best way to judge when your pizza is "done" is to look at the crust. When the top crust is rich brown, check the bottom to see that it is uniformly golden brown and firm to the touch. Slide your pizza off the tray & cook directly on your oven rack for the last couple of minutes if you enjoy a crisper crust. Our ultra thin crust pizza goes from under-cooked to over-cooked quickly, so please monitor your pizza's progress carefully.
- If dough bubbles simply puncture after about 6 minutes.
- Do not stack your pizzas: the bottom pizza will act as a heat shield. If you need to bake two 14" or 16" pizzas together, rotate and switch racks halfway through the cooking time. Two 12" pizzas may be cooked side by side. Cooking time is extended when you bake more than one pizza at a time.
- Use oven pads whenever you touch the tray. Allow your pizza to set for a few minutes before cutting.
- The baking tray is rated for one time use only.

THE PRIMA DIFFERENCE

What makes Prima's a better choice for you and your family?

- All-natural dough made fresh daily on premises & never frozen. We slow rise our dough for 72 hours to ensure the highest quality. We use only 100% extra virgin olive oil & only the finest flour available.
- Preservative-free homemade red sauce prepared on-site & never frozen.
- Italian-style cheeses of only the highest quality. We buy our blocks of cheese from Grande® Cheese Co. in Wisconsin. No steroids, growth hormones or antibiotics are used in the production of our cheese.
- Fresh vegetables & herbs prepared daily on premises.
